Goethe University Frankfurt am Main invites applications for the position of

**Professor (W3) of Clinical Psychology and Psychotherapy of Childhood and Adolescence**

at the Faculty of Psychology and Sports Sciences. This civil servant or public employee position will start as soon as possible.

The future professor will represent the field of Clinical Psychology and Psychotherapy of Childhood and Adolescence in research and teaching and will actively contribute to further developing the new M.Sc. programme Clinical Psychology and Psychotherapy as well as the Department's research focus area "Mental Health and Translational Clinical Psychology".

We are looking for an excellent and internationally visible researcher with a profile in clinical psychology and psychotherapy of children and adolescents. In addition to relevant publications in international journals, this should be documented in particular by the successful acquisition and implementation of competitive research grants. Successful candidates should also have a high level of didactic competence. Experience in collaborative research, openness to interdisciplinary collaborations, as well as participation in academic self-administration are required.

The new M.Sc. programme in Clinical Psychology and Psychotherapy was launched in 2021. Together with the neighbouring professors of Clinical Psychology, the successful candidate will be responsible for the implementation and further development of the M.Sc. programme. The successful candidate will also direct the postgraduate psychotherapy training programme for cognitive-behavioural child and adolescent psychotherapy, which has been established at our department for more than 10 years, and the associated training outpatient clinic. Accordingly, applicants are expected to have outstanding expertise in university-level teaching of clinical psychotherapeutic competencies, proven experience in the psychotherapeutic treatment of children and adolescents, experience in the (post-)training of child and adolescent psychotherapists (focus on cognitive-behaviour therapy), expertise in the supervision of psychotherapists, and management experience.

The Department of Psychology supports transparent, open, and replicable research. Applicants are therefore asked to explain how they have already pursued these goals and how they will pursue them in the future.

Applicants must have a diploma or master's degree in psychology, a doctorate and a Habilitation (or equivalent academic achievements) as well as proof of the clinical psychotherapeutic competences specified above. A licence (Approbation) to practice child and adolescent psychotherapy is required to be eligible for this position. Applicants from abroad must obtain their licence to practise within 3 years of taking up their post (see § 11 and § 12 of the Act on the Reform of the Psychotherapists’s Training [Gesetz zur Reform der Psychotherapeutenausbildung]).

The formal hiring requirements are defined in sections 67, and 68 of the Hessian Higher Education Act (Hessisches Hochschulgesetz). Goethe University is an equal opportunity employer, committed to diversity and inclusion. In particular, we are welcoming applications by qualified women and people with a migrant background. At Goethe University, a special emphasis is placed on creating and sustaining a family-friendly work and research environment. Where applicants are otherwise equally qualified, preference is given to candidates with disabilities or equivalent. The same applies to women in fields in which they are under-represented.

To apply, please submit a CV, a list of publications, an overview of your research and teaching activities as well as transcripts and a selection of recent course evaluations online at https://berufungsportal.uni-frankfurt.de by 29 February 2024. If you have any questions, please contact Prof. Dr. Sonja Rohrmann at rohrmann@psych.uni-frankfurt.de.
