Young Researchers at TU Darmstadt

# 2<sup>nd</sup> Young Investigator Appreciation Day

- Science Communication -

Outstanding Programme  
with journalists  
from ARD and ZDF

On Tuesday, 21<sup>st</sup> of May 2024, 3:30 pm  
at Georg-Christoph-Lichtenberg-Haus

---

## Dear Young Investigators

Ingenium, the university's graduate organisation for early career researchers (ECR), invites you to the **2nd Young Investigator Appreciation Day 2024** at TU Darmstadt to honour your excellent work and to enable you to network with other young investigators and postdocs from different research disciplines of TU Darmstadt and its Rhine-Main partner universities.

The event will be opened by Prof. Dr. Franziska Lang, Vice President for Academic Careers, followed by an **Appointment Ceremony for the Athene Young Investigators (AYI)**, who joined the AYI-Programme – TU Darmstadt's own independent junior research group leader-programme – in 2024.

This will be followed by an exchange on what is needed to effectively communicate scientific knowledge to the public. We welcome as guests **Prof. Dr. Nina Janich** (German Studies and Applied Linguistics at the TUDa), expert in science communication research, TUDa's Chief Communication Officer **Dr. Patrick Honecker**, and two **journalists** by profession with great expertise in communicating scientific results, **Mr Johannes Geiger** (Deputy Chief Editor of Terra X and MAITHINK X, ZDF) and **Ms Judith Kösters** (Editor thematic team "Climate", HR and ARD).

Finally, the **informal Get Together** will give you the opportunity to network with other participants.

We cordially invite you to an inspiring **Young Investigator Appreciation Day 2024** at TU Darmstadt!

Prof. Dr. Franziska Lang  
Vice President for Academic Careers
