The Faculty of Medicine of the Goethe University Frankfurt am Main and the University Hospital Frankfurt, invite applications for the following position as public employee in the Department of Medicine 2 in the Center for Internal Medicine starting as soon as possible:

**Professor (W3) of Clinical Leukemia Research**

As senior physician in the Department of Medicine 2 tasks include clinical leukemia research with a focus on acute leukemias, as well as the organisation and clinical care of leukemia patients. A special focus should be placed on innovative therapeutic concepts and the combination of clinical and translational leukemia research in Frankfurt.

To fulfill the comprehensive tasks, we are searching for a committed and innovative candidate with excellent knowledge and experience in clinical hematology. In particular, you should be well versed in the care of acute leukemias and clinical leukemia research, including being primarily responsible for leukemia trials in the relevant trial groups. You will have exceptional organisational and management skills, as well as experience in personnel management, and the disposition for interdisciplinary cooperation and the ability to overtake economic leadership. You possess a convincing concept for the further development of the leukemia field in clinical, research, and teaching environments, along with close involvement of the relevant clinical partners and study groups.

Experience in higher education, ideally with a proven track record in developing and implementing teaching concepts, is expected. In addition, you should possess excellent communication and presentation skills, as well as the ability to convey complex content in an understandable manner. Experience in supervising thesis work and supporting students is also positively valued, as are skills in utilizing innovative teaching methods and technologies. Furthermore, you are expected to actively contribute to the academic community and participate in the continuous improvement of teaching quality and curriculum.

The prerequisite for employment is a completed university medical degree, with a specialist designation in hematology and oncology, along with a habilitation or equivalent achievements, which could have been achieved as part of a junior professorship or outside of the university sector. In addition, successful acquisition of third-party funding and outstanding scientific publications should be demonstrated.

Goethe University and University Hospital Frankfurt are equal opportunity employer, committed to diversity and inclusion. In particular, we are welcoming applications by qualified women and people with a migrant background. At Goethe University, a special emphasis is placed on creating and sustaining a family-friendly work and research environment. Where applicants are otherwise equally qualified, preference is given to candidates with disabilities or equivalent. The same applies to women in fields in which they are under-represented.

To apply, please submit a CV, a list of publications, an overview of your research and teaching activities as well as transcripts and a selection of recent course evaluations online at https://berufungsportal.uni-frankfurt.de by 23 July 2024. If you have any questions, please contact Prof. Dr. med. Thomas Oellerich (oellerich@em.uni-frankfurt.de).
