The Faculty of Medicine of the Goethe University Frankfurt am Main, Department of Neurology (Director: Univ.-Prof. Dr. med. Christian Grefkes-Hermann, MBA), Center of Neurology and Neurosurgery, invites applications for the following position as civil servant or public employee starting as soon as possible:

**Professor (W2) for Experimental Stroke Research and Neuromodulation**

You should be an internationally recognized personality in the field of experimental stroke research in the context of systems neuroscience with a focus on interventions effecting neuronal plasticity and network reorganization after brain lesions. A translational application that combines clinically oriented stroke research with investigating and - if applicable - influencing of post-lesional plasticity and network reorganisation in model organisms is particularly desirable. The Department of Neurology cooperates closely with the Department of Neurosurgery, the Institute of Neuroradiology, the Departments of Child, Adolescent and Adult Psychiatry, Psychosomatics and Psychotherapy, the Institute of Neurophysiology and the Institute of Anatomy. You should be compatible with one or more of these institutions as well as with the working groups of the Cooperative Brain Imaging Center (CoBIC), the Ernst Strüngmann Institute (ESI), the Frankfurt Institute for Advanced Studies (FIAS) and the corresponding institutions of the University. The successful acquisition of competitive third-party funding (in particular DFG, BMBF, EU) and internationally visible publications is essential. Participation is expected in existing or planned research networks of the Faculty of Medicine and Goethe University. A particular commitment to the design of teaching for students is expected, as well as the willingness to actively participate in the design of study programs (Human Medicine, Interdisciplinary Neuroscience) and graduate programs in which the Department of Medicine participates.

Prerequisites for the application are a degree in biomedical science (biology, biotechnology, biochemistry, neuroscience, etc.) or in medicine, a doctorate and habilitation or equivalent achievements, which could have been achieved as part of a junior professorship or outside of the university sector.

The formal hiring requirements are defined in sections 67, 68, and 70 of the Hessian Higher Education Act (Hessisches Hochschulgesetz).

Goethe University is an equal opportunity employer, committed to diversity and inclusion. In particular, we are welcoming applications by qualified women and people with a migrant background. At Goethe University, a special emphasis is placed on creating and sustaining a family-friendly work and research environment. Where applicants are otherwise equally qualified, preference is given to candidates with disabilities or equivalent. The same applies to women in fields in which they are under-represented.

To apply, please submit a CV, a list of publications, an overview of your research and teaching activities as well as transcripts and a selection of recent course evaluations online at [https://berufungsportal.uni-frankfurt.de](https://berufungsportal.uni-frankfurt.de) by 8 August 2024. If you have any questions, please contact Prof. Christian Grefkes-Hermann, MD MBA at Grefkes-Hermann@em.uni-frankfurt.de. Further information about the appointment process, the legal framework and data protection: [www.professorship-vacancies.uni-frankfurt.de](http://www.professorship-vacancies.uni-frankfurt.de). Application documents will not be returned after the procedure has been completed.
